Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a method for the transmission and reproduction of image data, in which the image data are transmitted from a sending device to plurality of communication terminals and reproduced by image reproducing means, the current viewing direction of the communication terminal's user being determined, comprising the steps broadcasting first image data with a lower resolution over a first transmission channel to a plurality of users each using one of the communication terminals, sending the current viewing direction of one of the users over a reverse channel to the sending device, transmitting, specifically to the one of the users, second image data corresponding to the image areas viewed currently, or in future, by the one of the users, the second image data being transmitted with a higher resolution over a second transmission channel, and superimposing and simultaneously reproducing the first and second image data in the communication terminal used by the one of the users as claimed in claim 1. Similar features are claimed in claims 55, 56, 58, 62 and 63. Therefore, claims 55, 56, 58, 62, and 63 are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
